GIFT TAGS & CUT GUIDE

Cut on the dashed lines, punch the circle, and tie each tag on with twine or ribbon. Fill in what's inside and how to bring it back, so your gift gets eaten and enjoyed, not saved "for a special occasion" forever.

PRINT & CUT

1. Print at **100% / actual size**. Turn off "fit to page."
2. Measure the square at right. It should be exactly 1 inch.
3. Lid labels: **sticker paper**. Tags: **cardstock**.
4. Cut on the **dashed gray line**. A 2½″ or 3″ circle punch makes it fast.
5. Write with a fine-tip permanent marker.

SIZE CHECK

1 INCH

Regular-mouth lid: 2½″ label
Wide-mouth lid: 3″ label
Gift tag: 3.6″ × 1.85″
Lids vary a little by brand. Trim if needed.

MAMA TIP Clear-window bags and jars are adorable, but light breaks food down, so they're for treats that get eaten soon. Gifting the good stuff for later? Seal it in Mylar with an oxygen absorber and tie the tag on top.
